Report on organ transplantation teaching session

Department of Ophthalmology has conducted **Eye donation** awareness campaign for the past 2 years (2018, 2019). The students of III MBBS participated in the event. The lecture was addressed mainly on importance of eye donation, legal formalities and where to register for eye donation? Rally was also conducted to improve the awareness on eye donation in public with the active participation of students.

Eye donation is an action of help, mainly for the assistance of the society and is totally charitable. It is done after death. To allow another person get vision is one of the best procedures of charity. Even after death the donor lives in the eyes of recipient. Eyes from a dead person can enable two blind people to acquire vision. Decision to donate eyes ultimately lies with family members.
