Residents have to be posted in allied super speciality departments/ institutions so that they get exposed to those areas also. Syllabus and evaluation system was hitherto as laid by MCI. Full fledged OSCE system allows wider evaluation of the students. Innovations and improvisations in these keeping in mind the dynamic advances in the system should be made without diluting the importance for acquiring adequate clinical, surgical and attitudes and communication skills. |

We could see the sincere efforts taken by the teachers to train them through out the year. It was a pleasure to be the part of final examination. Overall the quality of undergraduate students and teachers are amazing. The team of microbiology under the abled guidance of Dr. Sheila mam did the tremendous job. |
